Professional Summary

Frontend-focused Fullstack Engineer with over 12 years of experience building responsive, high-performance web applications. Specialized in React, Next.js, and TypeScript, with strong backend experience using Node.js, PostgreSQL, and Prisma. Adept at delivering clean, maintainable code and scalable architecture. Comfortable in remote, agile environments and experienced with cloud infrastructure, accessibility, and performance optimization.

Tech Stack

Languages & Scripting: JavaScript, TypeScript, PHP, Python
Frontend: React.js, Next.js, Vue.js, Redux, Three.js, GSAP, Tailwind CSS, Bootstrap CSS/SASS
Backend: Node.js, Express.js, Prisma, PHP, Laravel
Databases: PostgreSQL, MySQL, MongoDB
APIs: REST, GraphQL
Testing: Jest, Vitest, PHPUnit
DevOps & Cloud: AWS (Lambda, S3, EC2, CloudFront), Docker, GitHub Actions, Kubernetes, ECS

Professional Experience

Senior Frontend Engineer | Freelance

Michel Many LTD · Self-employed — Remote (London, UK)
Jul 2023 – Present

Delivering scalable web applications with a frontend focus using React, Next.js, and TypeScript. Supporting fullstack capabilities with Node.js, PostgreSQL, and Prisma.

• Developed responsive UIs with React, Next.js, Tailwind CSS, and TypeScript
• Implemented backend features using Node.js, Express, and PostgreSQL
• Built modular and reusable components for scalable applications
• Collaborated with product teams to ensure performance and maintainability

Senior WordPress Engineer (React + TypeScript Focus)

Syde GmbH — Remote (Germany)

Nov 2021 – Jun 2023

Led frontend development for high-end Enterprise WordPress projects using React and TypeScript. Focused on Gutenberg block development and clean architecture for enterprise-scale websites.

• Created custom Gutenberg blocks with React and TypeScript
• Applied modern design patterns and clean code principles in PHP
• Contributed to CI/CD pipelines and supported development team workflows
• Delivered performant, scalable interfaces for WordPress VIP clients

Senior Frontend Engineer

TEAM LEWIS — Remote (UK)

Dec 2020 – Nov 2021

Built high-impact digital experiences for global clients using modern JavaScript frameworks and animation libraries.

• Developed interactive UIs with Vue.js, Next.js, and TypeScript
• Implemented real-time features with React.js, Three.js, and GSAP
• Collaborated across teams to ensure accessibility and performance standards
• Integrated continuous delivery workflows in a fast-paced agile environment

Frontend Engineer (Vue.js)

Bricks Builder — Remote (Cyprus)

Sep 2020 – Nov 2021

Contributed to the core development of Bricks Builder, a fast, community-driven visual site builder for WordPress. Focused on architecting the frontend editor experience using Vue.js and Vuex.

• Developed interactive drag-and-drop editing tools with real-time layout rendering
• Implemented advanced styling controls (margins, paddings, typography, icon libraries)
• Built reusable components for 100+ pre-built elements in the editor
• Integrated scoped styles using SCSS and dynamic updates with Vuex
• Collaborated directly with the creator and core team to shape the product's early direction

Lead Frontend Engineer

Logic London — Remote (UK)

Mar 2020 – Dec 2020

Oversaw technical execution and team coordination for multiple web projects using modern JavaScript frameworks and headless CMS integrations.

• Delivered sites using Next.js, React, and Vue.js
• Implemented headless CMS setups with WordPress, Contentful, Strapi, Sanity, and Umbraco.
• Led frontend and backend development in Laravel, WordPress, and Node.js

Fullstack Web Developer

Simplicity Partners — Remote/hybrid (UK)
Jul 2016 – Mar 2020

Delivered robust software solutions and websites for clients in finance, tech, and consulting. Led WordPress custom theme/plugin development while also building frontend features with modern JS frameworks.

• Developed fullstack apps using PHP, Laravel, React, and Vue.js
• Built modular components for Umbraco CMS using cshtml
• Integrated APIs, managed databases, and led cross-platform development

Lead Web Developer | Co-Founder

NITDESIGN Creative Studio — On-site (Brazil)
Jan 2010 – Jun 2016

Led design and development of custom websites and systems for clients in education, law, and local business sectors.

• Built WordPress themes and plugins from scratch using PHP OO
• Designed frontend layers with HTML, Bootstrap, CSS3, JavaScript, and AngularJS
• Managed MySQL databases and backend logic for dynamic content platforms

Education

• Bachelor's Degree in Graphic Design | Estácio de Sá University, Brazil
• Software Engineering & Development | INFNET Institute, Rio de Janeiro, Brazil
